Grade 1 student from Mission's Valley Christian School planted flower bulbs in their school garden last month.

The flower bulbs were given to them by Bulbs4Kids, a program that is allowing the class to become familiar with flower bulbs and the world of nature in a way that is also a lot of fun. When the tulips, crocuses, daffodils and grape hyacinths start blooming early in the spring, this school garden will be bursting with color.

The class signed up last spring to receive a flower bulb kit. This means that this
